Galil's New Microsite Offers Latest News and Videos at www.galilinmotion.com

Rocklin, CA—July 16, 2007—Galil Motion Control, an industry pioneer in motion control technology, unveiled its new microsite at www.galilinmotion.com where visitors will find it easier to keep current with the latest news and products from Galil, get the latest issue of their ServoTrends newsletter, read recent application notes, tutorials and new SmartMoves customer stories, and view videos of actual customer applications.

“The purpose of the microsite is to provide the latest and greatest information from Galil in a quicker and easier to navigate format,” said Lisa Wade, VP-Marketing & Sales. “Our corporate site will still exist and the microsite will refer people back to www.galilmc.com for more information about our other products and such. New information and products will continue to be posted on our corporate website, but the microsite gives the new information more emphasis and makes it easier to find.”

The key sections of the Galil Microsite include:

- **SmartMoves Stories.** Visitors can download PDFs of the customer application stories and view accompanying videos. Applications include semiconductor, medical, machine tools, textiles, entertainment and more. The current featured video shows the dramatic water show at the Wynn Hotel in Macau, China. Designed and choreographed by WET Design, the water show uses Galil to precisely control the numerous water heads.

- **ServoTrends.** The most recent issue is available for reading the absolute latest product news and in-depth articles on motion control.
- **Tutorials.** Several tutorials are available to view, each covering a specific educational topic on motion control like servo tuning, motion programming, motors, drives and more. In addition, visitors can watch an exclusive 15-minute video that features Jacob Tal, Galil founder and motion control pioneer, demonstrating a motion control system.
- **Resources.** This is where visitors can download the latest software drivers, application notes, product manuals and tools from Galil.
- **Featured Product.** Galil will feature its latest technology including downloadable specifications. Currently, Galil's ultra high-speed Accelera Series is featured.

For more information about Galil's new microsite located at www.galilinmotion.com, contact Lisa Wade, VP-Marketing and Sales, at Galil Motion Control, Inc., 3750 Atherton Road, Rocklin, CA 95765, Ph. 800-377-6329 or email lisaw@galilmc.com.

About Galil Motion Control, Inc. (www.galilmc.com)

Privately held and profitable for over 87 consecutive quarters, Galil Motion Control, Inc. was founded in 1983 by Jacob Tal and Wayne Baron. Galil became the first company to produce a microprocessor-based servo motor controller without tachometer feedback. Since then, Galil has continued to advance motion control technology and has found industry-leading acceptance with over 500,000 controllers successfully installed worldwide. Various applications include machines for the medical, semiconductor, machine tool, food processing, and textile industries. Recently, Galil has introduced several motion controllers for the Ethernet in addition to the latest generation Accelera controllers designed for ultra high-speed and performance.
